## **Feedback:**

-Include a section in the user profile with links that allow users to upload their research papers

-Remove the address and contact information from the site as that information does not exist and it is of low importance in our MVP

-Remove the moderator functions for the research interest groups

-Add more dynamic content to the site for a more user-friendly experience

-Include a page that tells visitors to register to be CEEA members if they want to join the Humanities and Engineering SIG.
