### **Feedback:**

- A redesign of the home page is required as it is hard to understand from the home page what the website is about
- Different ways can be explored to give the designed logo more attention
- The bilingual feature can be flushed out to allow members put information in both French and English
- The activity link on the navigation bar can be moved so that it is not the first thing on the nav bar (this could be left in its current location depending on what the benefits the activity page will bring)
